One grain of the active principle in Stuart's Dyspepsia Tablets will digest 3,000 grains of meat, eggs or other wholesome food, and this claim has been proved by actual experiment which anyone can perform for himself in the following manner: Cut hard boiled eggs into very small pieces, as it would be if masticated, place the egg and two or three of the tablets in a bot-tle or jar containing warm water heated 8 degrees (the temperature of the body) and keep it at this temperature for three and one-half hours, at the end of which time the egg will be as ompletely digested as it would have been in the healthy stomach of a hun-

gry boy.

The point of this experiment is that what Stuart's Dyspepsia Tablets will do to the egg in the bottle it will do to the egg or meat in the stomach and nothing else will rest and invigorate the stomach so safely and effectually. Even a little child can take Stuart's Tablets with safety and benefit if its di-gestion is weak and the thousands of cures accomplished by their regular daily use are easily explained when it understood that they are composed of regetable essences, aseptic pepsin, dia tase and Golden Seal, which mingles with the food and digest it thoroughly, iving the overworked stomach a
